

amount to cover projects, as they are proposed throughout the budget year. PEIF projects cannot exceed \$100,000 or cost limitations established by the OSD (whichever is greater) and are limited to facility modification and acquisition of “off-the shelf” equipment requiring little or no modification before use. In FY 1994 the limit changes to \$150,000. Justification for those projects shall be based on the potential to improve quality and productivity that is realized through improvements in operating methods, quality, processes, or procedures.

(3) *CSI*. CSI projects are investments financed from the DoD Component accounts that may have longer amortization periods than the PEIF and may have different DoD Component cost or benefit criteria than those specified for PIF projects. The CSI projects shall be identified and included in the DoD Component’s annual budget.

§ 162.7 Information requirements.

(a) DoD Components shall submit to the ASD (FM&P), by December 15th of each year, an annual status report on all PEIC programs as outlined in appendix A to this part. The DoD Components shall maintain the data at a central point to support reporting requirements.

(b) The Summary Report, “PEIC Program Status,” is assigned Report Control Symbol FM&P (A) 1561, in accordance with DoD Directive 7750.5.

APPENDIX TO PART 162—REPORTING PROCEDURES

A. General

The PEIC reporting requirements provide the OSD with summary information required to provide program accountability, and satisfy the congressional concerns on program management. Information may be submitted in memorandum, letter, or other acceptable form.

B. Information Requirements

1. *PIF*. Each DoD Component that has a funded PIF project must annually report summary PIF information. The information required for each project follows:

a. *Project Identification*. Provide the 11-digit code for each project that has been approved for desired funding, such as follows:

(1) A92BAXXXXXX

(a) “A” is for an Army project.

(b) “92” is for a FY92 project.

(c) “BA” is an Approved PIF project.

(d) “XXXXXX” is a DoD Component identifier.

(2) DoD Component PEIC points of contact should establish identifiers to ensure each project is unique.

b. *Total Funds Provided*. For each project provide the cumulative amount of PEIC funds invested in the project

c. *Total Amount Obligated*. For each project provide the cumulative amount of funds obligated against the project.

d. *Actual Savings*. For each project provide the cumulative actual savings generated.

e. *Projected Life-Cycle Savings*. For each PIF project provide the estimated amount of savings the project is projected to earn over the project’s economic life.

f. *Projected Life-Cycle Cost Avoidance*. For each PIF project provide the estimated amount of cost avoidance the project is projected to achieve.

2. *PEIF*. Each DoD Component that has funded PEIF projects must annually report summary information that includes:

a. *Total Number of Projects*.

b. *Total Funds Provided*.

c. *Total Amount Obligated*.

d. *Total Projected Life-Cycle Savings*.

e. *Total Projected Life-Cycle Cost Avoidance*.

3. *CSI*. Each DoD Component that has funded CSI projects must annually report summary information that includes:

a. *Total Number of Projects*.

b. *Total Funds Provided*.

c. *Total Amount Obligated*.

d. *Total Projected Life-Cycle Savings*.

e. *Total Projected Life-Cycle Cost Avoidance*.

4. *PIA* Post-Investment assessments, articles, pictures, and brief description of projects and their results are encouraged and may be attached to the annual report or submitted throughout the year.

PART 165—RECOUPMENT OF NON-RECURRING COSTS ON SALES OF U.S. ITEMS

Sec.

165.1 Purpose.

165.2 Applicability and scope.

165.3 Definitions.

165.4 Policy.

165.5 Responsibilities.

165.6 Procedures.

165.7 Waivers (including reductions).

AUTHORITY: 31 U.S.C. 9701.

SOURCE: 58 FR 16497, Mar. 29, 1993, unless otherwise noted.

§ 165.1 Purpose.

This part updates policy to conform with Public Law 90-629, “Arms Export

Control Act,” October 22, 1968, as amended for calculating and assessing nonrecurring cost recoupment charges on sales of items developed for or by the Department of Defense to non-U.S. Government customers.

§ 165.2 Applicability and scope.

(a) This part applies to the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Unified and Specified Commands, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “the DoD Components”).

(b) The provisions of this part do not apply to sales of excess property when accountability has been transferred to property disposal activities and the property is sold in open competition to the highest bidder.

(c) The policies and procedures provided for in this part shall apply to all sales on or after January 13, 1993, and supersede application thresholds and charges previously established. Previous versions continue to govern sales made during applicable effective dates. Such previously established nonrecurring cost recoupment thresholds and charges shall be eliminated or revised in accordance with this part.

§ 165.3 Definitions.

(a) *Cost pool.* Represents the total cost to be distributed across the specific number of units. The nonrecurring research, development, test, and evaluation cost pool comprises the costs described in paragraph (f), of this section. The nonrecurring production cost pool comprises costs described in paragraph (e), of this section.

(b) *Foreign military sale.* A sale by the U.S. Government of defense items or defense services to a foreign government or international organization under authority of the “Arms Export Control Act,” Public Law No. 90–629 (1968) as amended. Except as waived by the Under Secretary of Defense for Policy, Foreign Military Sales are the only sales subject to nonrecurring cost recoupment charges.

(c) *Major defense equipment.* Any item of significant military equipment on the United States Munitions List hav-

ing a nonrecurring research, development, test, and evaluation cost of more than 50 million dollars or a total production cost of more than 200 million dollars. The determination of whether an item meets the major defense equipment dollar threshold for research, development, test, and evaluation shall be based on DoD obligations recorded to the date the equipment is offered for sale. Production costs shall include costs incurred by the Department of Defense. Production costs for the foreign military sales program and known direct commercial sales production are excluded.

(d) *Model.* A basic alpha-numeric designation in a weapon system series; e.g., a ship hull series, an equipment or system series, a airframe series, or a vehicle series. For example, the F5A and the F5F are different models in the same F–5 system series.

(e) *Nonrecurring production costs.* Those one-time costs incurred in support of previous production of the model specified and those costs specifically incurred in support of the total projected production run. Those nonrecurring cost include DoD expenditures for preproduction engineering; rate and special tooling; special test equipment; production engineering; product improvement; destructive testing; and pilot model production, testing, and evaluation. That includes costs of any engineering change proposals initiated before the date of calculations of the nonrecurring costs recoupment charge. Nonrecurring production costs do not include DoD expenditures for machine tools, capital equipment, or facilities for which contractor rental payments are made or waived in accordance with the DoD FAR Supplement.

(f) *Nonrecurring research, development, test, and evaluation costs.* Those costs funded by a research, development, test, and evaluation appropriation to develop or improve the product or technology under consideration either through contract or in-house DoD effort. This includes costs of any engineering change proposal started before the date of calculation of the nonrecurring cost recoupment charges as well as projections of such costs, to the extent additional effort applicable to
